GENERAL MISCELLANEOUS BRANCH 896

To

N. Madhava Rao, Esq., B.A., B.L.,
Chief Secretary to the Government of His Highness
the Maharaja of Mysore, Bangalore.

CHIEF SECRETARY'S OFFICE 1 AUG. 1930

SIR,

With reference to your letter No.G.333/Sany.6-29-11 dated the 9th July 1930 forwarding a copy of the report of the Health Department for the quarter ending 31st March 1930 and inviting reference to the suggestions contained on page 23 of that report about the Vaccination Survey of the State, I have the honour to state that I made personal enquiry in the office of the Director of Health as to the proposals which the Department had in view. The Health Department want information whether each person has been vaccinated or not collected at the Census, together with a Statement of deaths in each house, in the year preceding the Census Night, of children below one year of age and others above one year of age. Information regarding Vaccination can be collected on the schedule by having an additional column. The information required regarding deaths can be collected on the block list for each block by the addition of a column, but it is better not to collect this information on the Census date but some earlier day in the course of the preliminary enumeration. I suggested the 15th February 1931, to the Director of Health and he agrees to this date. I have therefore the honour to request that approval of Government may be obtained to the addition of a column regarding Vaccination to the General Schedule. The information regarding deaths in the course of the year preceding the 15th February 1931 will be collected on the Block List.

I have the honour to be,
Sir
Your most obedient servant

Venkatesaiyengar
